

Glitter effect glaze

Area of application:

Quick-drying acrylic-based glaze with an attractive glitter effect. Dries transparent – leaving behind slightly shimmering surfaces with glittering accents that appear depending on the incidence of light. Decoratively highlights surfaces or individual elements. Can be used on wallpaper, white and coloured emulsion paints, plaster, polystyrene, natural and artificial stone, masonry and similar surfaces.

Properties:

- Decorative glitter effect for modern wall design
- Dries transparent
- Solvent-free
- For wallpaper, emulsion paints, plaster, decorative elements made of polystyrene and similar surfaces in interior areas

Technical data:

Raw material base: Plastic dispersion, effect pigments, water, additives
Density: approx. 1.05 g/cm³
pH value: 8.0 – 8.5

Substrate preparation:

The substrate must be dry, stable, dust-free and grease-free. Repair any holes and cracks. Prime highly absorbent, sandy or chalky substrates.

Application:

Shake the container well before use. To achieve the most even distribution of the effect pigments, we recommend using a short-pile paint roller or a suitable sprayer for large areas. If necessary, apply several thin coats and make sure that there is no overlapping. The glaze should not be diluted, as this could impair the adhesion of the effect pigments.

Consumption:

80 – 120 ml/m²

Notes:

Do not use at object and room temperatures below + 5 °C. Clean tools with water immediately after use.

Please refer to the safety data sheet for safety-related information. Current safety data sheets are available on our website www.pufas.de/www.de-cotric.de or at sds@pufas.de/sds@decotric.de.

Storage:

Store in a cool, dry place and keep tightly closed. Keep out of reach of children.

Disposal:

Only recycle completely empty containers. Do not allow paint to enter drains, waterways or soil, even when cleaning painting tools. Dispose of paint residues at your local collection point for hazardous household waste or hire a waste disposal company.

Colour	Item no.	Container size
Pearl	017002001 / 017003001	750 ml / 1.5 l
Brilliant	017102001 / 017103001	750 ml / 1.5 l
Diamond	017302001 / 017303001	750 ml / 1.5 l
Ruby	017202001	750 ml
